Course Description

The certificate in Vehicle Fitting Operations aims to equip participants with the skills and knowledge required in a fast fit environment. The range of individual units allows us to put together a programme which meets the individual and business needs in a vehicle fit environment.

How will it be delivered?

You will be assigned a dedicated assessor from our team of industry specialists who will visit you at work every 4-6 weeks at a time to suit you and your employer. They will become your support and guidance throughout your course. Your NVQ will include various voice recorded assessments such as observations and guided discussions. This qualification takes a minimum of 12 months to achieve.
