INTERMEDIATE

Apprenticeship in Warehousing and Storage

Who is it for?

This certificate is aimed at a warehousing and storage environment. It is designed to deliver the knowledge, understanding and practical skills needed for effective warehousing and storage.

Course Overview

- NVQ Certificate in Warehousing & Storage Level 2
- Functional Skills in English & Maths
- Employee Rights & Responsibilities
- Information Advice & Guidance (IAG)
- Personal Learning and Thinking Skills

Course Description

This course is designed to provide the knowledge and skills participants need to develop their understanding of the warehousing and storage environment; enabling learners to achieve a nationally-recognised vocationally-specific qualification. Units available in this course include dealing with goods in and goods out, placing goods into storage, order picking and health and safety.

How will it be delivered?

You will be assigned a dedicated assessor from our team of industry specialists who will visit you at work every 4-6 weeks at a time to suit you and your employer. They will become your support and guidance throughout your course. Your NVQ will include various assessments such as voice recorded observations and guided discussions. This qualification takes a minimum of 12 months to achieve.
